Frequently Asked Questions

1. Can I apply for more than one taught postgraduate curriculum?
Yes, you can apply for more than one taught postgraduate curriculum. You should submit an online application and pay the application fee online for each application.

2. How much is the application fee for taught postgraduate admissions and how should I pay for it?
The application fee for each application is HK$300 (non-refundable). Payment of application fee should be made online at https://hku.hk/tpg/. Payment by cash will NOT be accepted.

3. When will the results of applications be announced?
The results for admission in September are normally available by July of the same year. Hence, applicants who do not hear from the Faculty of Engineering by July 31, 2019 may assume the application to be unsuccessful.

4. If my application submission is incomplete, will it still be processed?
We cannot process your application unless the submission is complete. That means we must receive:
- the completed application form;
- the application fee of HK$300;
- transcripts of all tertiary educational institutions attended; and
- the score report on English language proficiency test, if required.

5. How can I submit the supporting documents for my application?
Applications will be considered based on the information provided. Therefore you are advised to upload all the supporting documents to the on-line application system upon application for admission to the MSc curriculum.

If you have already completed your undergraduate study, you are advised to upload all the information to the system.

If you have NOT completed your undergraduate study at the time of application, you are advised to upload the latest transcript of your current studies and all available information deemed relevant to your application to the system.

If you receive a conditional offer of admission subsequently, you have to submit the documents required including but not limited to the official / certified true copy of transcript to the Department concerned by the deadline specified.

6. If I submit multiple applications, how many sets of supporting documents shall I submit?
As the applications will be handled by different staff, one set of supporting documents should be submitted for EACH application.

7. Do I need to attach or send in academic / professional referees’ reports?
You do NOT need to attach or send in academic / professional referees’ reports for your application for admission to MSc(Eng) / MSc curricula in the Faculty unless requested. If you still wish to provide us a reference letter, you may upload it via the online application system.

8. If I am given a conditional offer by the University, are photocopies of the required documents acceptable to the University?
Please note that the University will only accept originals or copies of the documents that have been duly declared as true copies before a notary public (e.g. a Commissioner for Oaths at a District Office in Hong Kong). Copies of documents may be certified by the appropriate officials of your home institute if you are an overseas applicant.

Documents which are not in English should be accompanied by a formally certified translation in English.

9. How can I get the officially certified true copies of transcripts of my undergraduate / postgraduate studies forwarded to the Department concerned?\(^{\text{Note}}\)
We recommend one of the two methods listed below:

i) Simply complete the “Transcript Request Form” and directly send that form to the institution from which you graduated. That institution will then directly send certified copies of your transcripts to the Department concerned.\(^{\text{Note}}\)

ii) The Faculty also accepts photocopies of original documents that have been duly declared as true copies before a notary public (for example a Commissioner for Oaths at a City District Office in Hong Kong).

10. Can I apply for transferring credit(s) for course(s) completed successfully at this / another university to be counted towards completion of the MSc(Eng) / MSc curriculum in HKU?
You can apply for counting up to 12 credits successfully completed at this or another university before admission to the MSc curriculum in HKU towards completion of the HKU MSc curriculum. Students who wish to do so should make the request upon application for admission by completing the relevant column in the application form and providing ALL the supporting documents. Any application made after admission to the HKU MSc curriculum in Engineering will NOT be considered.

11. Is concurrent registration allowed in HKU?
Concurrent registration by a student of HKU for another postsecondary qualification either at HKU or at another institution is not permitted, unless approval of the Senate has been obtained in advance. A breach of this Regulation in Hong Kong or elsewhere may result in the student concerned being required to discontinue studies at this University.

12. Will applications submitted after application deadline be considered?
Late applications will NOT be considered.

13. Do I need to attach my undergraduate results with the application form if I am a graduate of The University of Hong Kong?
Yes. Please upload a photocopy of the transcript(s) or a photocopy of the printout of your examination results from the Student Information System (SIS).
14. **Is there any financial assistance provided to students admitted to the curriculum?**

The following forms of financial assistance are available from the Hong Kong Government to eligible students who are Hong Kong residents:

i) Continuing Education Fund (CEF) for eligible Hong Kong residents – Reimbursements of up to HK$10,000 upon completion of certain approved courses with an overall attendance rate no less than 70%. Please visit the CEF website at [https://www.wfsfaa.gov.hk/cef](https://www.wfsfaa.gov.hk/cef) for further details and updates of eligibility, application, and reimbursement procedures (in particular the reimbursement period from the date of application).
